### Career Objective

Motivated and enthusiastic Computer Science student with a solid foundation in MERN stack development. Eager to gain hands-on experience through an internship or entry-level role where I can contribute to real-world projects, learn from experienced developers, and grow as a full-stack web developer.

### Experience

#### MERN Stack Developer (Self-Driven Projects)

2023 – Present

- Frontend: React.js, HTML5, CSS3, Bootstrap, JavaScript, Tailwind, Material-UI (MUI)
- Backend: Node.js, Express.js
- Database: MongoDB, Mongoose
- Other Tools: Git, GitHub, Postman, RESTful APIs
- Concepts: CRUD Operations, Authentication, Responsive Web Design, MVC Architecture

#### Data Entry Assistant (Freelance / Local Business – Skardu)

2023 – 2024

- Performed accurate data entry and record maintenance using Microsoft Excel and Google Sheets.
- Entered and verified customer and inventory data with 100% accuracy.
- Maintained confidentiality and ensured clean formatting of reports and documents.
- Managed daily clerical tasks and collaborated with team members to streamline workflows.
- Tools: MS Excel, MS Word, Google Sheets, File Handling
- Typing Speed: 45 + WPM with 96% accuracy

### Project

#### E-commerce Web Application (MERN Stack)

- Built a fully functional e-commerce site with user registration, login, product management, and shopping cart features.
- Integrated MongoDB Atlas for database storage and RESTful APIs for communication between frontend and backend.
- Used React Router for routing and Formik + Yup for form validation.
- Tech Stack: React.js, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS

### Education

#### Bachelor of Computer Science
